

Compost turner **DACHS NP 2.0 / 2.2 / 2.5**

Attachment for tractors for active conversion of compost and soils, etc.

The HP compost turner is designed to be mounted on a 3-point system (CAT II or CAT III) for tractors with an output of approx. 80-120 hp. The turner is driven by the tractor PTO (540 rpm). The rotor then rotates at 180 rpm.

Specifications

Parameter of Compost turner			
	NP 2.0	NP 2.2	NP 2.5
A-total height work / working height	1.450mm	1.450mm	1.700mm
B-Rotorbreite / width of rotor	2.000mm	2.200mm	2.500mm
C-Overall length / total length	4.430mm	4.750mm	5.050mm
D-Gesamtbreite / total width	1.190mm	1.190mm	1.390mm
Höhe der Plattform / height of platform	1.300mm	1.300mm	1.500mm
Length of the bridge / frame depth	1.000mm	1.000mm	1.200mm
Rotordurchmesser / diameter of rotor	Ø614mm	Ø614mm	Ø614mm
Rotorumdrehungen / RPM of rotor	180 1/min	180 1/min	180 1/min
Maschinengewicht / machine weight	790kg	850kg	970kg
Empfohlener Traktor / recommended tractor	70-90 PS	80-100 PS	90-120 PS
